BUILD YOUR OWN CIRCUITS !

⚙ Junior Engineers Robotics Holiday workshop will explore all of the key components and essential principals of Robotics through a series of fascinating experiments

  ⚙ Students will build working devices, from simple to complex

  ⚙ Students will go from switching circuits to integrated circuits and from simple alarms to programmable micro-controllers

⚙ Junior Engineers step-by-step learning approach will help students use and understand electronics concepts and techniques

⚙ No previous knowledge or experience is required. Students from **Grade 5 and above** are welcome

⚙ Students are required to **bring their own laptop** (Windows or Mac)
