

# Graceville station accessibility upgrade

Project update –  
June 2016

Main construction on the platforms and in the subway at Graceville station has begun. This accessibility upgrade is being undertaken as part of Queensland Rail's \$212 million station upgrade program.

## Project progress

The following construction activities were recently completed:

- establishment of construction zones on the platforms and in the subway
- installation of new overhead equipment
- installation of temporary lighting
- underground service investigations and relocations within the station precinct.

## Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- further underground service relocations
- additional temporary lighting installations
- preliminary foundation works for new lift shafts
- temporary removal of some furniture, lighting and signage on platforms 3 and 4 to prepare for lift shaft works.

## Construction impacts

Customers, residents and businesses adjacent to Graceville station may experience the following:

- noise associated with heavy machinery
- use of reversing beepers
- changed traffic and parking conditions
- mobile lighting towers
- increased vehicle movements around the work zones
- temporary changes to access paths throughout the station precinct.

Pedestrians and motorists are advised to follow all directional signage during this time.

Residents and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after-hours work (nights and Sundays, as required).

## Keeping you informed
