

Graceville station accessibility upgrade

Project update –
November 2016

The Graceville station accessibility upgrade is part of Queensland Rail's \$212 million station upgrade program and is expected to be completed by late-2017, weather and construction conditions permitting.

Project progress

The following construction activities were recently completed:

- resurfacing of both ends of platforms 3 and 4
- ongoing lift shaft construction works
- saw-cutting for new entrances into subway
- installation of conduits on platforms 3 and 4.

Upcoming work

In the coming weeks, customers and the community can expect to see the following construction activities:

- installation of structural steel
- further lift shaft construction works including excavation and concreting
- awning refurbishment works on platforms 3 and 4
- resurfacing on platforms 3 and 4.

Scheduled track closure works

To take advantage of a planned track closure, weekend works will occur at the station from 6am Saturday 26 until 6am Monday 28 November.

Activities will include work to lifts, awning refurbishment and civil works on all platforms, pedestrian ramps (from Honour Avenue and Appel Street), and drainage works in the subway. Crane lifts will be used from Honour Avenue and Appel Street to access the platforms.

Aerial photography will be undertaken during the track closure on Saturday 26 November.

Construction impacts

Customers, residents and businesses adjacent to Graceville station may experience the following:

- noise associated with heavy machinery
- use of reversing beepers
- changed traffic and parking conditions
- mobile lighting towers for night works
- increased vehicle movements near works
- temporary changes to access paths throughout the station precinct.

Pedestrians and motorists are advised to follow all directional signage during this time.

Residents, businesses and other stakeholders will be given advance notification of construction activities likely to cause impacts, including after hours work (nights and Sundays, as required).

Keeping you informed
